The packaging of the synthetic wearing course material should be marked with:

- the KIWA hallmark;
- the certificate number;
- the expiration date;
- the required legal information.

kiwa K42146

SUGGESTIONS FOR THE USER

The products are intended for application as synthetic wearing course systems on steel, wooden, concrete and bituminous construction substrates. We recommend paying close attention to the following conditions for application:

On delivery, check:

- whether the products have been supplied as agreed;
- that the packaging has been marked correctly;
- the products for any visual damage due to transport or other reasons;
- the aggregate meets the criteria of the Building Materials Decree or other relevant legislation by means of a NL-BSB-certificate or a batch test.

If, based on the above, you refuse to accept the products, please contact:

- Bolidt Kunststoftoepassing B.V. in Hendrik Ido Ambacht, the Netherlands;

And, if necessary:

- Kiwa Nederland B.V.

For the correct storage, transport and processing methods, please refer to the processing instructions of the certificate holder.
